LIVE Online Trainings:

HS University new LIVE Online gives you an effective and proven online learning with an extensive learning catalog and the freedom to attend from virtually anywhere. Using Blackboard Learn™ and ZOOM™, HS University offers students the best learning environment available today.

HS University's LIVE Online platform effectively delivers our unrivaled Instructor Led Training experience directly to students anywhere.

Just like our physical trainings, students attending our LIVE Online courses have a real time, live instructor led student experience. The live instructor teaches the course and provides the opportunity for students to ask live questions via voice or chat message questions during the live training event.

LIVE Online trainings provide a rich, engaging, live classroom environment that allows students to easily interact with instructors and fellow students in-person and virtually.

In addition, just like our traditional online web-based training, LIVE Online includes access to Discussion boards and download center to enhance the technical in-depth training covered in the course. This allows students to test apply and practice the skills they are learning in real time.

Student Information Packet for LIVE Online Training

BENEFITS OF LIVE ONLINE

- Live synchronous instruction. Students attend training at any of HS University's locations or from an outside location.
- No cancelations! The largest guaranteed to run schedule for Head Start professionals.
- Access to over 300 courses with authorized HSU compliance courseware.
- Learn from the same experienced, top-tier compliance driven instructors you'll find at HS University around the US.
- Use the discussion boards and download center for your course to access forms, policies and procedures that we cover in our courses.

LIVE Online Computer Technical Requirements

HS University's LIVE Online learning environment consists of online Blackboard Learn™ and ZOOM™ online training. Both are accessed seamlessly through our online web based learning management system. Before your course begins Student Services will reach out to you via email to ensure your system meets configurations. For the best experience, we recommend students systems include:

- A modern computer (>1.4Ghz) running Microsoft Windows 7 (or higher) or MAC OS
- An up-to-date internet browser (IE, Chrome, Firefox or Safari)
- A cable, DSL or WAN Internet connection greater than 1Mbps speed both up and down (System uses port 80, 443 and 2179)
- Adobe Flash Player (For file viewing)
- A monitor capable of 1280x1024 pixel resolution
- Video and Audio capability
