Family Engagement...

...Supporting family well-being, family stability and goals setting!

Most agencies understand how important a Head Start experience can be in the lives of our nation's disadvantage children and families. These conferences lays out a course training that is appropriate for every staff person, from the members of your management team to the volunteers. Each conference will strengthen your program's ability to build on the Head Start's tradition of parent involvement that has so successfully guided Head start in the past.

The conferences incorporates both the Head Start Parent, Family, and Community Engagement framework with the Social work practice and educational standards to promote family and community well-being. Guided by these frameworks the conference promotes outcomes that are flexible and easy to conceptualize in practice.
