See page 5 for details!

Comprehensive training solutions for staff working in Head Start! *Integrating the learning process... Anticipating the Future!*

About HS University

HS University Showcase... HS University takes its services on the road to showcase learning around the US. The showcases provide opportunities for Head Start staff to learn about our training

services available to them. They can see a live demo of the education portal, which includes log on instructions, course registration, webinars, online study and keynote speakers. Mini workshops on such topics as Head Start eligibility, health services, and supporting families can be offered at the showcase as well. To request a showcase at your location, call (901) 748-0293.

About HS University...

HS University is a private university designed by experts in the field of Early Childhood Education. We offer the best of both worlds with campuses listed all over the US and a diverse online education program. Since our focus in on school employees, we set the standards when it comes to regulatory compliance. We provide personal attention, but we also collaborate with Office of Head Start as part of our training development. Our curriculum emphasizes teamwork and excellence in service. Class sizes are small and typically have 15 or fewer students per class. We believe you learn more when you can interact with your classmates and your instructors. This intimate classroom setting provides you with a place to practice, try out new ideas, develop communication skills and test your leadership abilities. The University has close to 1000 graduates since its beginning in 1994. The classes offer an online community for students who never set foot in a class.

Earn college credits while you train...

At HS University, we've reinvented training for today's Early Childhood professionals. In fact, we have made significant investments in our technology, services, faculty and campuses to bring you the best

educational experience possible. Training with HS University means you are earning credits toward higher education degrees. HS University has partnered with local universities in all 50 states to allow credits earned through HSU to apply towards toward upper and lower division requirements of degree programs. Our online courses are built on Blackboard Learning Systems[™]. This allows students to attend classes online via their laptops, iPads, iPhones or other Android devices, 24 hours a day, 7 days a week. We are also a training partner with National Association for Social Workers (NASW). Meet your license requirements by earning NASW Continuing Education credits.

Why do so many Agencies depend on HS University and not someplace else? It's because HS University isn't like anyplace else.

Comprehensive.

HS University provides the most comprehensive

training choices available today, enabling you to meet all your program training needs, no matter what your program options. We offer more than 400 courses and more than 15 Credential programs. As one of the largest Head Start training integrators,

Agencies rely on us for all their training needs from program policy to volunteers. With HS University, the same university that trains your staff on family support can also train your staff on program monitoring. Training can also enhance your staffs productivity by helping staff to become more confident. With HS University training, you keep pace with the rapid complex changes taking place in the Head Start environment.

If you don't see a class you need...

HS University offers many classes in closed sessions or based on demand. Call an Account Executive for information about classes not listed in this schedule.

On-Site Training Solutions

Get the results you're looking for! Bring our powerful, high-impact training programs to your agency and show your employees that you're serious about their professional development and achieving critical program goals and objectives.

Choose from over 400 courses!

From program design and management to family services, our comprehensive library of courses provides a learning experience that is engaging, interesting and intriguing!

Tailor the training to meet your specific needs! We'll help you choose the appropriate courses for your agency and tailor each one to address specific goals, issues and scheduling concerns.

Maximize Your Training Budget!

On-Site Training allows you to train work groups, teams and policy groups for less than the cost of traditional seminars or other training options. Give your staff the skills, knowledge and confidence they need to meet tough workplace challenges head-on, realize their full potential and perform at their peak. See page 8 for pricing!

For a free consultation, visit us online at www.hsuniversity.org or call us at 1-888-282-7817 today!

Over the years, we have developed teaching techniques and materials that provide all participants with the benefit of the most progressive training available. We cover the vast amount of information you need in a fast paced environment to maximize your time and learning experience. Actual regulations, information memorandums, program instructions and standards will be utilized throughout the training. Our workbook is designed explicitly for the workshops. Topics are organized in a sequence designed to clarify and simplify. Questions and comments will be addressed as you proceed through the material courseware.

Our training gets you answers!

FREE to every student

When you attend this workshop, you'll get a CD-ROM packed with powerful, time-saving forms and regulations to help you pinpoint and develop procedures and instructions at your program... as well as the most up-to-date regulations and more.

A bound workbook that will be a valuable refresher and reference You'll walk away with a comprehensive workshop manual containing information, regulations, forms reference materials and techniques that took thousands of hours of research to put together--all in one convenient workbook you can use over and over again.

Your course workbook will become an immediate action plan for your program.

Mailing Lists

Because we use multiple mailing lists to announce our programs, you may receive a duplicate of this catalog. If you would like to have your name removed from our mailing lists, please call our office at 901-748-0293 or email us at remove@hsuniversity.org. If you would like to add your name to our list, call or send us your name, agency, address, phone and fax number.

Health Services Training & Credentials

About Credentials...

Our credential is an academic collegiate degreeseeking program. It is not a one-time training. Our credential program is designed to convert to college credits toward higher education degrees. Students who are enrolled in our credential program are building a college transcript that can be used to meet the educational requirements of professional degree programs. As an education partner with University of Phoenix, we can offer education and professional development programs targeted for Head Start professionals. University of Phoenix and HS University have aligned a curriculum designed to meet Head Start competency standards. Our credential programs have shaped assignments to real Head Start situations students encounter in their programs to help apply to their jobs and program quality.

HS University credentials build upon previously earned credentials thereby cost may be less than the costs listed, based upon the type of credential earned from other Universities or training programs.

Why do I need a credential or license? The true value of an education is where it can take your program. At HS University, we strive to make our education work around your schedule. To help you succeed as a program as well as a student. We offer flexible scheduling with the option to attend classes from your desk at work, via online, or at a conference campus location near you. Having a credential from HS University makes all the difference. HS University's credentials are recognized by Federal teams as exemplary models that can implement comprehensive, innovative and targeted approaches to enhance program services.

What types of credentials are offered? HS University offers two types of credentials. Each credential is a process that consists of the attainment of a specific skill level and knowledge of regulations and the assessing of the candidate's educational background and experience. A credential is then awarded to the professional who meets the standards set for the content area. The credential program is designed as a valid and reliable measure of a candidate's understanding of the core regulations related to a content area. Candidates enrolled in the credential program acquire a skill set of the best practices and procedural methods for implementing, monitoring and managing regulations within a school environment.

Administrator Credential

The administrator credential validates your ability to manage, monitor and implement content area environments in a Head Start program. It reflects a unique set of skills required to succeed in a variety of job roles, such as administrator, center manager, program manager, coordinator, or management specialist.

• Supervisor Credential

The supervisor credential encompasses those abilities obtained in the administrator credential but focuses more on the management and leadership roles. This credential produces professional leaders and consultants who demonstrate and maintain technical expertise and who apply their skills to today's Head Start program's mission statements, leadership quality and management excellence.

About Licenses...

Our *license* is a "permission to practice." It is not a one-time training. Our license program is designed as upper division college credits used to meet higher education degrees. Students who are enrolled in our license program are meeting core upper division credit requirements towards bachelor, master and doctorate degree programs. As an education partner with University of Phoenix, we can offer education advancement targeted for Head Start professionals. Local Universities and HS University have aligned a curriculum designed to meet Head Start competency standards. Our license programs have shaped assignments to real Head Start situations students encounter in their programs to help apply to their jobs and program quality.

HS University's license builds upon previously earned credentials thereby cost may be less than the costs listed,. based upon the type of credential earned from other Universities or training programs. A management license is a "collegiate diploma." It is a post secondary academic process of establishing the qualifications of skilled professionals in Head Start programs. The management license focuses on the importance of management quality and demonstrates how the achievement of quality management systems depends on shared Head Start values and an exemplary management team.

Health Services... "Maintaining Comprehensive Health Services..."

Can training of health service workers advance a program's quality in these challenging and uncertain economic times? The answer is absolutely. The economic shift has caused a decrease in funding. No longer can a Head Start program focus only on meeting requirements. According to the 2007 Head Start Act, any program who lacks high quality comprehensive services will be required to re-compete for current grants. Any health service program that wants to be identified as a "program of excellence" needs staff that has obtained more than just academic skills. Quality service requires specialized knowledge and regulatory skills. This conference gives both. You learn regulations needed to determine compliance and knowledge that displays excellence!

Managing Comprehensive Health Services

What you'll learn and how you'll benefit...

This conference is designed to help programs support and enhance quality of health services by learning proper and consistent methods of delivering health services. It is based on the core principles and practices that comprise Head Start's approach to health care for children and families. It is designed to help staff recognize and implement policies, procedures and practices that promote comprehensive health services. The conference will cover information to help you learn new skills, information and federal regulations, and:

- Gain insight into current medical health, nutrition and dental health practices,
- Learn to monitor your classrooms for health safety
- Learn about medication administration, Short and Long term exclusion, Incomplete physical examinations
- Address barriers with providers
- Understand and effectively implement follow-up services for EPSDT schedules
- Monitor PIR health requirement
- Maintain up-to-date record-keeping processes
- Learn nutritional requirements as well as how to address food service challenges
- Learn techniques for working with families and children

Who should participate?

This conference is beneficial for all staff members. Teachers, Home Visitors, Family Service Workers, Health and Management staff will gain knowledge to improve family and child outcomes within their program.

(Credits earned: 9 for Credentials, 18 for License)

FREE to every participant...

A bound workbook that will be a valuable refresher and reference

You'll walk away with a comprehensive workshop manual containing information, tips and techniques that took thousands of hours of research to put together—all in one convenient workbook you can use over and over again.

Your program workbook will become an action plan for immediate use at your program.

Get answers to your most pressing questions and gain valuable hands-on experience in HSU's license program...

Over the years, we have developed teaching techniques and materials that provide all participants with the benefit of the most progressive curriculum available. We cover the vast amount of information you need in a fast paced environment to maximize your time and learning experience. Actual regulations, information memorandums, and standards will be utilized throughout the program. Your workbook is designed explicitly for this curriculum. Topics will be covered in a sequence designed to clarify and simplify. Questions and comments will be addressed as you proceed through the material courseware.

To begin your license process, you must complete the following:

- 1. **Complete a candidate application and Pay fees.** The candidate application is the pre-enrollment portion of the process. Each candidate must pay fees or complete an Agency Billing Authorization Form.
- Register and Attend for Core Course There are four courses available for students. Students may choose any one (1) of the four course to meet the requirements. See dates listed on page 6. NOTE: Students converting their *FDC credential* to our license program must pay license fee, complete one (1) management systems course and pass one (1) license exam as well as complete steps 4 and 5.
- 3. **Take required exam(s)** Candidates must pass with a score of 75% or above on all exams. Each exam is \$185 (included in price), which is non-refundable. Candidates that do not meet the acceptable score must retake the exam again at the \$185 price. (Exam price is included in cost.)
- 4. **Complete Student Practicum** Student practicum is comprised of student field work, self-appraisal form and license portfolio packet. Student must submit timesheets to the University for confirmation of 120 clock hours of work in licensed field. During this period the team assessment will be held. Team assessments are set twice a month on the 15th and 30th of each month.
- 5. **Meet State Board licensing requirements** Once a candidate has met requirements of the license program, identification of state licensing requirements will be identified in the state each candidate works. Paperwork will be completed and submitted to candidate's state boards.
- 6. Award Date Scheduled Students who have met the requirement of the program will be granted the credential award. If requirements are not met, student will be informed of requirements needed to complete program. If requirements have been met, license will be granted.

Have several staff to train?

Get the results you are looking for with on-site training! Bring our powerful, high-impact credentialing program to your organization and show your employees that you're serious about their professional development and achieving critical program goals and objectives. We can deliver a 2 day workshop right to your program's door. Our on-site credentialing price is for 10 staff which includes 2 days of training (16 hours), 10 exam fees at \$360 per person, 10 candidate enrollment fees at \$485 per person, 10 course manuals and workbooks, 10 FSW Alliance membership and all travel cost for trainers. Call for on-site pricing. Ask about your program staff delivering this credential program to all staff.

REGISTRATION INFORMATION

What ever your method of registration, be sure to enroll right away since space is limited. As soon as we receive your registration, we'll send you a registration confirmation. To register, mail or fax the registration form to (901) 748-0293 or call 1(888) 282-7817. You may email the registration information to mdavis@hsuniversity.org. Registrants will be notified if a course is over subscribed or canceled. If not notified to the contrary, your registration has been accepted.

Payment: Payment must be received two weeks prior to workshop date unless other arrangements are made in advance. POs are accepted, but PO must be cleared prior to training.

Cancellation or Substitution. Cancellations received at least fifteen business days prior to workshop are refundable, minus a \$25 registration service charge. After that, cancellations are subject to the entire workshop fee, which you may apply toward a future workshop. Please note that if you don't cancel and don't attend, you are still responsible for payments. Substitutions may be made at any time. If for any reason we are required to cancel a workshop, our liability is limited to the return of the registration fee only.

HSU will award (1.6 CEUs) Continuing Education Units for this training. To register for CEUs, please mark the appropriate box on the Registration Form and include an additional \$25 per person in your payment. HSU offers CEU's in accordance with IACET and NASW. Please verify applicability with your professional board before purchasing CEUs.

On-Site Training. For only \$5495, we can deliver a 2 day workshop right to your company's door. For complete details and a no-obligation quote, call 1-888-282-7817 and ask for the on-site training department. Price includes all travel cost and 10 manuals for up to 40 staff members. For 50 or more add \$500.

Online Training... Education without boundaries! We offer On-Site and Online Training!

Online Training...

Online training is a valuable and cost-effective method for professional development budgets that provides employees with wellrounded and regulations based training dedicated to promoting excellence in Head Start. The benefits are astounding but here are key points to consider:

- Convenient As employees struggle to balance the demands of work and home, e-Learning allows them to learn from work, home and on the road.
- **Relevant** Since course content includes the most current topics, e-Learning ensures training is applicable to a person's Head Start career path.
- **Immediate** Delivery over the Internet enables online learning to begin with just a few mouse clicks.
- Affordable Cost savings is a key attraction as agencies save between 50-70% due to elimination of travel expenses .
- **Fun** By providing a captivating interactive environment with dynamic content, e-Learning not only effectively keeps people up -to-date, but interested as well.
- Easy to Use Open an Internet browser and employees are up and running quickly.

Earn a Credential or License today...

HS University's Credential Professionals are cut from a different cloth than those who attend training workshops only. Our credentialed students not only thrive on meeting the challenges of performance standards, but they also take it upon themselves to develop and hone their skills-to use HS University to stay ahead. The practical expertise that is gained through HS University's programs provides students with the kind of regulations know-how that identifies areas of non-compliance and brings about consistent quality solutions. A credential requires 3 days of training, a Prior Learning Assessment (PLA portfolio packet), an examination process and a candidate application, a course workbook and manual, an application fee. A certificate is a license and requires 12 credit hours of training plus a license fee. Credential and certificate programs are for students seeking management advancement or higher education goals.

Register for your license today!
